EDUCATION

CareerFoundry, Certified UX Design program, September 2017 - January 2019

- 500 plus hours of training with industry-leading mentors; which was designed by experts from companies like Apple and Amazon

- Focus on Data-driven UX methodology with a comprehensive, hands-on training spanning from user research and user journeys to information architecture, wireframing, prototyping and presentation of work.

- Developed several real world projects during the course, using software such as Sketch, Invision and Balsamiq.

University of Sussex, BA Hons Biology 2:2, 2006 - 2009
Studied Human evolution as well as animal communication and wrote a dissertation on the effects of benzodiazepines.

WORK EXPERIENCE

eHub (online Consultation) Administrator, eHub Hurley Group, February 2018 - Present
Monitoring the workflow of Online Consultations submitted to our 13 GP Practices and distributing work to Doctors

- Optimized the workflow for 12 GP's resulting in a 20% increase in the number of patients receiving remote medical advice via online consultations.

- Designed Step by step guides to new processes or programmes Using UX and UI principles to help with visual understanding.

Finance Administrator, Hurley Group, December 2011 - February 2018
Reconcile bank accounts, maintain monthly in and out goings according to budgets. Make sure financial policies are adhered to across 13 GP practices

- Designed and built a system to automatically generate 100's of invoices, turning a 5 day piece of work into a 1 day (each month)

- Completed a project to design a new stock control system/model. This involved interviewing current staff to get qualitative data on current work flows and insights into improving this.

- Presented Findings from Stock control project to 250 colleagues at our AGM, using entertaining Images and metaphors to keep the listeners engaged.

Reception, Hambleden Clinic, September 2009 - March 2011
Face to face reception work in a busy GP surgery whilst saving to go travelling
